

# GRE Subject Math - 6 Weeks Study Schedule

SubjectMath.com

## Introduction

- The study schedule places the modules with practice tests in a schedule designed to prepare for the test.
- The schedule assumes that the student has SubjectMath practice tests #1 and #2, together with two original test examples from ETS. (At least one is published on ETS's website)
- Notes for a day dedicated to a practice test:
  - Prepare a simulating environment (no phones, use pencils, write on an answer sheet, time the test, etc...)
  - Start the practice test on the same time as the actual test.
  - Take a one hour break when test ends.
  - Spend the rest of the day going over the answers and redoing the problems which you got wrong.

## Schedule

	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
week 1	1-Basic	1-Basic	1-Basic	2-Calc1	2-Calc1	2-Calc1	2-Calc1
week 2	2-Calc1	2-Calc1	2-Calc1	3-Lin.Alg.	3-Lin.Alg.	3-Lin.Alg.	3-Lin.Alg.
